It helps to have a guaranteed expert on your side...

A one-piece stainless steel track enables effortless opening and closing, allowing luxurious access between home and garden, truly letting your house breathe.

When closed, maximum weather resistance is ensured thanks to double brush seals on all four sides, coupled with an unique quadruple seal interlock.

Patio Doors are adept at insulating your home against heat loss, helping to reduce your energy bills and carbon footprint and keeping your property safe and secure.

Security plays a central role with these innovative doors. They feature toughened or laminated glazing, with multi-point hook locks. The entire door frame is fully steel reinforced for strength and durability. Our Patio Doors are fitted with 'anti-lift' blocks and are available with anti-pick cylinder locks to deter even the most-determined potential intruder.
